

# Dosing Panels & Cabinets

**PLASPOKE**  
Bespoke Plastic Fabrications & Designs

Plaspoke Plastics are experts in the design & fabrication of dosing panels, cabinets & skids.

Plaspoke offers a range of exceptionally designed & fabricated Dosing Panels, Cabinets & Skids for a range of industries.

Manufactured from a range of premium virgin grade plastic's, they are suitable for all grades of chemical protection. This offers long lasting peace of mind as our plastic products don't corrode and come with built in pump stands, floor mounts, shields & day tanks/dosing tanks if necessary.

Custom fabricated to your specifications, there is no need to worry about not having your size in stock. These "drop-in-place" solutions take full advantage of the space available, while you get the peace of mind of our **10-year** workmanship guarantee.

## **What sets us apart:**

- Usually fabricated in **14 working days** or less
- Significantly cheaper than other custom fabricators in the market
- Will **never** rust or corrode
- Fully customisable design
- Quick, free, no-obligation quotes
- Pipework can be pre-assembled at your request
- Production certificate with every tank.
- **10 Year** workmanship guarantee
